Suggested Improvement / Room for Development	The children can be divided into two groups to carry out activities, so that the children have more time to experience the characteristics and changes of weather and seasons.			Activities can continue in the park after lunch, giving children more time to appreciate the scenery and sketch.			It allows children to get close to firemen and their equipment. Children are very excited. It would be better if the time can be extended a little to visit the facilities in the fire station.

Suggested Improvement / Room for Development	Fruits can be used for different artistic activities, such as assembling fruit bowls, fruit printing, making fruit skewers, etc.			Visiting their own community can make the children feel more at home. During the visit, they actively shared their daily activities in the community and were very excited. This activity can be continued next year.			Visiting Green @ Lei Mu Shu and observing the operation of the food waste disposer allowed the children to experience firsthand the attitude of environmental protection starting from me, which was very meaningful.
