Content	In order to help young children experience the changes in weather and the natural environment, as well as the growth of plants, and to deepen their understanding of nature, thereby sparking their interest in exploring the natural ecological environment.	In order to teach young children to respect life and cultivate an attitude of caring for animals, the school arranged for the children to visit the SPCA.	In order to provide young children with a more engaging learning experience, the school arranged for them to participate in educational programmes organised by the Ocean Park Academy. Through visits to the "Ocean Wonders" exhibit and participation in interactive puppet shows, the children were able to get up close with coastal creatures, discovering how marine life protects itself	To provide young children with a more diverse range of physical activities, the school has hired professional physical trainers to lead the children in various physical activities, allowing them to experience the joy of play.	Young children explore the characteristics of marine and terrestrial animals through visits to the "Ocean Wonders" and "Amazing Asian Animals," gaining an understanding of the needs of different animals and their relationship with their habitats.

			and the importance of conservation. This allowed the children to experience a unique learning opportunity.

Content	By introducing young children to fireflies and various aquatic insects, they can learn about a variety of precious aquatic creatures. They can also enter the "Firefly Experience Room" to admire the enchanting glow of fireflies. In addition, there are various experiential activities and games that allow children to learn about the importance of caring for the environment and	Young children participated in the "Food Detective" experience activity organised by Green Exchange Academy. Through experiential learning, the activity sparked the children's curiosity and guided them to use their five senses to explore the connections between food, nature, and environmental protection. This allowed the children to experience nature	Young children mostly live in more modern areas and are not very familiar with the old districts of Hong Kong. Through guided tours, children can learn about the culture of Hong Kong's old districts, understand the evolution of the streets and buildings, and enhance their knowledge of Hong Kong.		

	cherishing natural resources in a fun and enjoyable way!	and joyfully learn about healthy and environmentally friendly eating habits.
